**RE: FLORIDA SEX OFFENDER STINGS  
COMPLAINT and REQUEST FOR INVESTIGATION**

Dear Ms. Bondi:

The Florida Action Committee is a non-profit organization that advocates for Public Safety. On behalf of our several hundred members, I am writing to find out what is being done to investigate those responsible for the fraudulent sex offender stings taking place in our state over the past several years.

Many of our members, who are serving a life-sentence on the sex offender registry, maintained they were never soliciting minors online. Instead, they were entrapped by law enforcement in an adult website through a bait-and-switch scheme and then railroaded into a plea upon threat of incarceration. Even those who fought back and were never charged or acquitted, were still publicly shamed and lost assets.

With Unity Comes Change

The atrocities that have been going on for years were recently exposed in a series of investigative reports by Sarasota's WTSP reporter Noah Pransky. The details can be found, among many sources, here: <http://www.wtsp.com/story/news/investigations/2014/12/29/10-investigates-problems-sex-predator-stings/20802715/> and here: <https://www.techdirt.com/articles/20141231/07133929557/how-florida-police-falsely-arrest-shame-men-as-child-sexual-predators-steal-their-cars-then-try-to-hide-records.shtml>

It is my hope in submitting this request, that your office initiates a formal investigation into the matter, exonerates those victims who are unjustly labeled sexual offenders and brings the law enforcement officials responsible to justice. After all; they are the true predators here.

Sincerely,

Gail Colletta, President  
Florida Action Committee
