

ily members of registrants in harm's way.

- Registrants are frequently denied special housing such as nursing home care and section 8 housing.

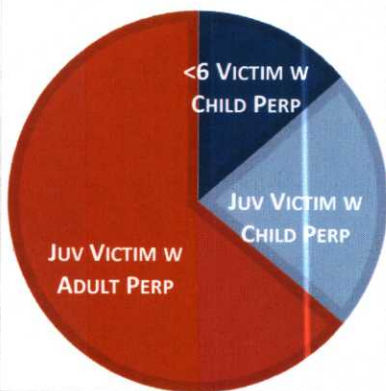

Are all children being protected?

- In more than a third of sexual abuse cases against minors, the perpetrators were also juveniles; with victims under age 6, 40% of the offenders were juveniles.

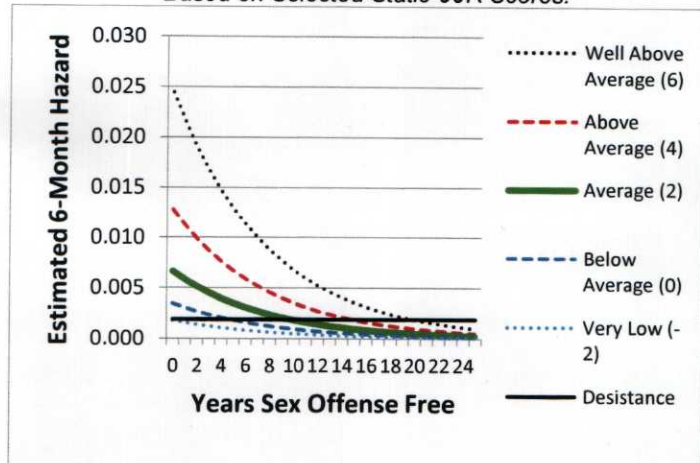

CONTACT OFFENSES

SEXUAL ABUSE AGAINST MINORS

- 23% of contact offenders were under age 18 at the time of their offense, with 16% under age 12.
- Putting youth – some as young as 8 – on registries severely negatively impacts their futures.

Where is the public safety?

- “Stranger-danger” is rare; 90% or more of victims know their attackers, higher for children.
- Research studies have found no relationship between having a registry and a decrease in sex offenses.
- Current sexual offense laws create conditions that lead to increased crime.
- Over 95% of new sexual crime is committed by persons NOT on a registry.
