RE: PROPOSAL TO REDUCE THE HOMELESS POPULATION

Dear Mayor Suarez,

If you were presented with a proposal that could *instantly* cut the City of Miami’s homeless population *in half*, would it be something you would be receptive to learning more about?

I am President of the Florida Action Committee, Inc., a 2,500+ member non-profit that advocates for public safety based on empirical evidence and best practices. We follow the homeless situation in Miami very closely.

In the August 30, 2022, edition of The Miami Times, you were quoted as saying, “We feel that it’s an unfair burden for the city to have to take care of all the homeless without any help, or without more help, from Miami-Dade County”. Your quote was in response to a request from the Miami-Dade Homeless Trust to use \$12.7 million in COVID-19 federal relief funds the city received, to buy multifamily buildings.

In reading the article and the related letter from the Homeless Trust Chairperson (attached), we realized that the County itself and the Chair of the Homeless Trust himself, are a direct cause for the majority of the unsheltered homeless in the City of Miami. Recognizing this, our organization has come up with a plan that would reduce this homeless population in Miami by half, if not more, overnight. It would also not cost the city or its taxpayers a penny!

More specifically, according to the letter from the Homeless Trust, “[their] *January Point in Time Count Enumerated 591 persons living on the streets in the City of Miami*”. (Page 2, second paragraph). We know definitively that 445 of these 591 individuals, or **75% of the homeless population in the City of Miami**, share one common characteristic. These individuals (a list of which is attached hereto for your verification) are on the sex offender registry.

The primary cause for the homelessness of these 445 individuals, is Chapter 21, Article XVII of the Miami-Dade County, Florida, Code of Ordinances, also known as the “Lauren Book Child Safety Ordinance” (the “Book Ordinance”). Under the Book Ordinance, an individual on the registry is precluded from living within 2500 feet of a school. The effect of the Book Ordinance has rendered the overwhelming majority of the residential area in the County an exclusion zone. Most of these individuals do have somewhere they could sleep at night but for the Book Ordinance, which precludes them from doing so.

In fact, the \$12.7M the Miami-Dade Homeless Trust is seeking from the city would do nothing to help 445 out of the 591 homeless, because persons forced to register are also excluded from homeless shelters and public housing. The city officials have a responsibility to be prudent with the city’s scarce resources. Allocating \$12.7M to “partner” with the Miami-Dade Homeless Trust will do nothing for 75% of the homeless in Miami! However, if the County were to repeal the Book Ordinance, it would *instantly* afford 75% of the city’s homeless citizens the opportunity to live with family and friends they would otherwise not be able to.

In case you are concerned about the impact repealing the Book Ordinance would have on public safety, please be assured that study after study has demonstrated that residency restrictions have no impact on sexual re-offense, and the housing instability they cause actually increase recidivism. I will be very happy to share the research with you. Additionally, common sense dictates that a law that controls where someone sleeps between 10PM and 6AM (when schools are closed and children are generally home, sleeping) would not make children safer.

The obviously present but conveniently avoided irony in this situation is that the author of the letter from the Miami-Dade Homeless Trust is Ron Book. Mr. Book is the father of Lauren Book, after whom the Book Ordinance is named. Mr. Book is also the architect of these residency restrictions. I can understand why Mr. Book would sooner waste millions of dollars on a measure that will not work, rather than spend absolutely nothing on one that will, if it would mean preserving an ordinance named after his daughter and that was his idea. It is beyond time the city, Miami-Dade County and the Homeless Trust worked through that blatant conflict of interest.

As a public fiduciary, you owe a duty to the residents of the City of Miami to act with financial responsibility. If a solution exists that can significantly reduce the number of unsheltered homeless in the city without costing a penny and without jeopardizing public safety (and in fact improving it), you have an obligation to consider it. I strongly encourage you to reject the Homeless Trust’s self-serving partnership offer, at least until investigating alternative proposals including ours.

I would welcome the opportunity to meet with you to discuss this further and/or to provide you with any additional information.

Sincerely,
/s/ Gail Colletta

The Honorable Francis Suarez
Mayor, City of Miami
Miami City Hall
3500 Pan American Drive
Miami, Florida 33133

Dear Mayor Suarez:

Together we have a once in a lifetime opportunity to put new units of housing into the development pipeline for people experiencing homelessness. The Homeless Trust is seeking to strategically partner with the City of Miami and use historic housing resources made available through the American Rescue Plan Act (ARPA) to further reduce homelessness.

ARPA provided \$5 billion in HOME Investment Partnerships Program funds for the purpose of reducing homelessness and increasing housing stability (HOME-ARP). HOME-ARP funds must be directed toward assisting individuals or households who are homeless, at risk of homelessness and other vulnerable population. As you likely know, the City of Miami has received an allocation of \$12,770,527.00 in HOME-ARP.

We are asking Participating Jurisdictions (PJ's), including yours, to target these resources specifically to individuals or households who are homeless. These are individuals who are largely sleeping on our streets or staying in temporary emergency shelters without viable permanent housing options. As a result, their homeless episode is prolonged until suitable permanent housing can be identified.

HOME-ARP funds can be used for four eligible activities:

- Purchase, Rehabilitation or Construction of Affordable Rental Housing
- Tenant-Based Rental Assistance (TBRA)
- Supportive Services, Homeless Prevention Services, and Housing Counseling
- Purchase and Development of Non-Congregate Shelter

The production of housing targeted to those on the streets and in shelters, many of whom are disabled and elderly and have little to no income, will help create the system capacity needed to permanently house those on Miami's streets and ensure they do not return to homelessness. The City of Miami will not reach Functional Zero or be in a position to ensure that homelessness is rare, brief and one-time without adding or identifying new permanent housing stock which targets people experiencing homelessness who are at 30% Area Median Income (AMI) and below, including the chronically homeless population.

Letter to The Honorable Francis Suarez

March 22, 2022

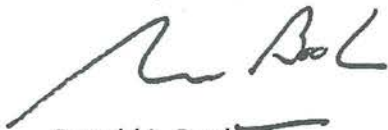

Page Two

By acquiring and renovating units of housing specifically for this population, Miami's efforts to eliminate homelessness will not be beholden to the private rental market and skyrocketing rents. The Homeless Trust has already identified several viable properties for acquisition and renovation, and we are open to any recommendation from your administration in identifying additional properties for new unit development. Tenant Based Rental Assistance and supportive services, including landlord recruitment and housing navigation and shallow subsidies, are also among the eligible HOME-ARP activities that can further expedite housing for people experiencing homelessness.

As you know, homeless numbers in Miami are low with the lowest unsheltered number in 8 years. Our January Point in Time Count enumerated 591 persons living in the streets in the City of Miami, and another 2,470 in emergency shelters and other temporary housing. Through the creation of permanent housing, we are positioned to drive these numbers down further.

The Homeless Trust has been in early discussions with City of Miami staff to discuss a realm of partnership possibilities to help us effectively end homelessness by leveraging HOME-ARP resources. We know multi-jurisdictional collaborations and coordinated systems are needed to achieve this shared goal. We are committed to using our local resources and leveraging other resources made available through ARPA and the CARES Act to ensure households experiencing homelessness get and stay housed. We ask that as you continue to develop your community's HOME-ARP plan, the Homeless Trust's recommendations based on identified need are given every consideration in order to assist the City in achieving Functional Zero. Please contact us at vmallette@miamidade.gov or 305-375-1490 so that we may meet with you and your administration to further discuss partnership opportunities.

Sincerely,

Ronald L. Book
Chairman

Victoria L. Mallette
