

We need your help in locating resources in your area.

Everyday, we receive calls from those in search of housing, employment, food, and more. Tell us who you know to be a resource so that we can share the referrals with other members in your area. Your name will NOT be associated to the referrals unless you indicate to use your name. FAC will compile the list, but FAC will NOT recommend one over another. List as many as you can and return this form to FAC in the envelope provided, with or without your dues. Take a minute to identify a resource or try to find these resources in your area. Include the contact information and brief description. Use back of page as needed.

Resources can be added online at: <https://floridaactioncommittee.org/resource-referral-submission/>
